

ECU & inverter compatibility for EMEA

ECU ID (12 digits)

no longer available

ECU-3

ID starting with :

- **203** -> PLC (no antenna) version 3 (without WiFi) for YC250, YC500
- **204** -> PLC (no antenna) version 4 (with WiFi) for YC250, YC500
- **213** -> ZigBee (1 antenna) version 3 (without WiFi) for YC1000
- **214** -> ZigBee (1 antenna) version 4 (With WiFi) for YC1000

ID starting with :

ECU-C

- **205** -> PLC (1 antenna) for YC500 no longer available
- **215** -> ZigBee (2 antennas) for YC600, QS1, YC1000
YC600 ID 408 management embedded ID>215000002400
Automatic update for 215000000500<ID<216000002400

ID starting with :

- **216** -> ZigBee only for YC600, QS1, YC1000
ID<216000004179 -> 1 antenna
ID>216000004178 -> 2 antennas
YC600 ID 408 management embedded ID>216000003600
Automatic update for ID>216000003600

ECU-R

Microinverter ID (12 digits)

no longer available

YC500

starting with **403** or **404**
Single phase using Tconn 3c AC Bus

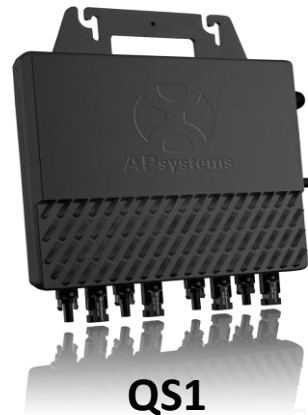

YC1000

starting with **501** or **502**(1130W)
3 phase using Tconn 5c AC Bus

YC600

starting with **406** or **408**
Single phase using Yconn AC Bus

QS1

starting with **801**
Single phase using Yconn AC Bus
